

## **Introducing the Teacher Acceleration Program: Rapidly Onboard Teachers and Free up Administrator Time**

### About this Session

Use a hands-on, focused approach to rapidly onboard teachers and reduce staffing challenges for administrators with the new Teacher Acceleration Program (TAP).

TAP is an 8-week program that extends the value of the Teacher Membership by providing focused, personalized coaching and support that will help teachers effectively implement The Creative Curriculum.

In this 1-hour session, we will hear from one of the TAP coaches and review the components of the program, including:

- A dedicated coach and discussion forum in The Hub,
- New focused learning themes every week,
- Live and on-demand course recommendations,
- Daily live office hours, and
- Ask the Expert hotline with guaranteed 2-hour response.
